Electronically enabled system access in residential and recreational part of the campus

CCTV : They are the perfect deterrent: Only the sight of CCTV cameras on your property is enough to scare off most burglars and make them think twice before breaking in. This is especially useful for small businesses because they are most targeted by thieves and burglars, sometimes even during day time if your business is in a high crime area. They are the perfect deterrent for thieves, burglars and other trouble makers .WE School Bangalore has this security system in hand. We have installed cameras in 42 locations and the video footage is stored and scrutinized by authorized person of our campus on regular basis.

English Learning Language Lab: The communicative method for learning languages combines extensive, high-quality content with flexible audio technology. This comprehensive language-learning method can act as a total solution for self-teaching, as well as a teaching support to formal courses. Tool helps to improve the communication skill and proficiency of students in English through a wide range of activities, it also addresses the concepts of grammar, lexicon, phonetics and conjugation. The objective of the language lab is to improve learner's linguistic competence- through accuracy in grammar, pronunciation & vocabulary. It helps to develop pragmatic competence, to understand the grammatical form , function & scale of formality.
