"The illiterate of this century will not be those who cannot read and write,  
but those who cannot learn, unlearn, and relearn."

- Alvin Toffler

It's a VUCA world where the rules of the game have changed and undoubtedly, we are convinced of the need for a radical change in management education.

Emerging unarticulated needs and realities need a new approach both in terms of thought as well as action. Cross disciplinary learning, discovering, scrutinizing, prototyping, learning to create and destroy; one's lenses and thinking needs to be nurtured to be able to adapt and transform businesses and society.

Welingkar is focussed towards developing future ready managers and leaders, who are versatile, competent and value based. Welingkar's guiding philosophy has been that of AAA which stands for "Acquisition, Application and Assimilation of knowledge". Our emphasis is not only on acquisition of knowledge; but on the application of knowledge. We strongly believe that by engaging students in pursuing real-life projects/simulations/case studies, wherein they are able to apply the concepts learnt leading to assimilation of knowledge. Our efforts are towards creating an environment conducive to experiential learning.

I proudly present this brochure which unfolds the world of Welingkar and about the experiences, achievements and our commitment to disseminate knowledge to create a brighter future for you. After all, nothing enlightens the human mind like good education.
