This encourages a spirit of sportsmanship and healthy competition among all the faculty, staff, alumni and students.

xx. Teaching Learning Process

Teaching Learning Process – SOP

Course Allocation to the faculty

- i. Specialization Heads and Program Heads identify appropriate faculties well in advance, for various courses for the upcoming trimester and inform ADC.
- ii. A complete course-wise faculty allocation is prepared by ADC for a given trimester.
- iii. The draft document is sent to the Incharge Director for approval.
- iv. ADC shares syllabus, and the TLP Template to Incharge Director and to all the faculty.
- v. The above process is done well ahead of the upcoming trimester to enable faculty to prepare their study / teaching material, Teaching-learning plans, course plan, soft and hard copies of reading material, etc.

Ensuring the Assurance of Learning in Curriculum Designing and Teaching Pedagogy

Outcomes-Based Education (OBE) Framework

The PGDM programs are designed using an Outcomes-Based Education (OBE) approach that ensures continuous improvement in curriculum design and delivery. This framework is built around three key components: **Course Outcomes (COs)**, **Program Outcomes (POs)**, and **Program Educational Objectives (PEOs)**. These elements collectively provide clarity and direction to what students are expected to learn, achieve, and demonstrate over time. The attainment levels of these outcomes are periodically assessed to ensure alignment with the Institute's **Vision and Mission**, and to meet the expectations of stakeholders.

Augmenting Knowledge using Experiential Learning - Guest Lectures, Alumni Interactions and Industry Discussions

As a part of AAA Approach, students' knowledge is augmented via course-specific, industry specific, guest lectures, alumni interactions and Industry discussions.

Curriculum Designing

WeSchool endeavors to develop contemporary and industry-driven outcome-based curriculum and review/update the same on an annual basis. At WeSchool, the curriculum includes co-curricular and extra-curricular activities in addition to the basic curriculum.

Smart Classroom Design - ICT Enabled

The classroom teaching-learning method is a tried and tested and efficient method to impart knowledge and information to a large number of students. Keeping pace with advancements

and time, at WeSchool, all classrooms are supported by State-of-the-art Technology driven gadgets – smart TV, audio-video equipment, with entire campus Wi-fi.

Pedagogical Initiatives

- ICT enabled Teaching Pedagogy
- Student –Faculty Discussions driven classroom sessions
- Leadership Development Initiative: Global Citizen Leadership (GCL)
- Foundation Program
- Immersion Program
- Integrative Manager –Harvard Business Publishing Case (HBP) studies
- Experiential Learning through Role Plays
- Live Projects
- Encouragement to participate in inter-collegiate competitions
- Guest Lectures, Alumni Interactions and Industry Discussions

Methodologies to Support Weak Students & Encourage Bright Students Weak Students.

Such students are identified based on various parameters viz participation & performance in Class discussions /interaction, Continuous Internal Evaluation (CIE) & AC process. These students are then mentored and counseled where required. Additional steps taken to scale-up such students are:

1. Mentors are appointed to guide them academically & non-academically.
2. Refresher classes are held in subjects where they are found to be weak.
3. Periodic tests are conducted & assignments given & reviewed for quality of the content.
4. Previous years question papers are given to them towards practicing.
5. They are trained and encouraged to participate in student development activities.
6. End semester exams are conducted to improve their academic performance.
7. Peer level collaborative studying and exchanging of ideas is also encouraged.

Bright Students: Mentors identify the bright students and spot areas where they are strong.

Subsequently assign specific activities like exposure to specific tech driven tools like SAS, SPSS, Excel, further reading, solving problems, share contemporary news / developments beyond their syllabus to gain additional knowledge. Such students are also encouraged to attend conferences / workshops / seminars /inter-collegiate competitions / any special competitions

held by India Inc / Institutes outside of the campus. In the process bright students:

- A. Update themselves with the latest tools and technologies
- B. Demonstrate critical thinking and take up innovative projects
- C. Take up higher studies in the field of research and other related courses like Digital, Social media marketing, Analytics etc. thus enhancing their skill and managerial quality and in the process their employability chances.

Proficiency test: Proficiency Test is a mandatory evaluation process that every student must undertake to choose a specific specialization. Here again, low performing students are identified for whom a refresher course is conducted and are asked to take an internal test towards improving their scores.

Refresher Course: Refresher Course in the second year closer to Trim V, senior students are provided with a refresher class where a senior faculty conducts three sessions, revisiting all concepts & fundamentals, specialization wise towards enhancing their subject knowledge as also gaining in confidence to face impending interviews

Initiatives of Performance Improvement - Teachers / Faculty:

➤ **Students' Feedback**

The effectiveness of any initiative can only be judged by continuous feedback from the students. Accordingly, the teaching-learning process at our Institution is analyzed via feedback taken from students, twice in every Trimester – mid-term & end-term. The first feedback is taken one month after the commencement of the trimester and feedback is reviewed, shared & discussed by the Dean / Program Head with the concerned faculty. Where appropriate and required the concerned faculty is counselled and corrective action is agreed and implemented. Second feedback is taken at the end of the course where feedback is sought on course outcomes, coverage of relevant topic beyond syllabus, seeking their suggestions for improvement of the course, content and delivery. The analysis of student feedback and faculty teaching improvement is done by programme assessment committee with recommendations of corrective actions, where necessary.

➤ **Peer Learning**

At WeSchool, faculties are encouraged to enhance their knowledge and effective lecture delivery using multiple sources. One of the effective ways of enhancing knowledge is learning from peers-colleagues, corporate guest faculty and alumni working at a senior level in the reputed organizations.

➤ **Faculty Development Programs (FDPs)**

Faculty development programs are identified & designed based on need-gap analysis, continuous improvement process to remain contemporary to name few. At Weschool, we use external and internal faculty resources, and our teaching faculty are encouraged to attend external FDPs as much as they also have to attend internal FDPs.
