Addressing the students, **Prof. Dr. Uday Salunkhe, Group Director, WeSchool**, said "It is the power and potentiality of the youth that if harnessed prudently can become the instruments of social change, thereby making this world a better place to live in. While we grapple with modern day complexities, we need to remind ourselves the simplicities of life as taught by Gandhiji. At WeSchool, where we nurture and hone talent and enable them to become global leaders who are excited rather than worried and look at the plethora of opportunities for pioneering & brave work that has the ability to transform the society. Personal contribution to the nation's progress resonates with the Mahatma Gandhi's teaching of 'Be the change you want to see in the world' will encourage many to begin with the new 'I'."
